1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/13/06 has been entered.

2. This application is in condition for allowance except for the following formal matters:
Claims 3 and 15 are objected to because of the following informalities:

In claims 3 and 15, the limitation of "at least a portion of one of said controllers is disposed on said electronic device/on one of said electronic devices" appears to be inaccurate because the test controllers (214) are not disposed on the electronic device (234).

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

3. Claims 1 and 14 are allowable because the prior art does not disclose a test apparatus having a combination of a base controller with a first connectors coupled to a tester, a plurality of test controllers coupled to a plurality of second connectors that are electrically connected to an electronic device and wireless means for communicating test data wirelessly between the base controller and the test controllers as recited in independent claims 1 and 14. Since claims 4-9 and, 16-24 and 40-47 depend from allowable claims 1 and 14 these claims are also allowed

accordingly. Currently claims 1,4-9,14,16-24 and 40-47 are allowable.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
